Drawing and Painting

Basic to Advanced

This course will teach you how to observe, see and understand more about the surrounding 4 dimensional world and help you express this in your art. You will:

- Learn drawing and perspective from sketching to detailed studies
- Discover multiple ways of using various pencils, brushes, papers and paints
- Learn how to use and mix the paints
- Understand the theory and meaning of colours
- Learn to express your feelings in drawing and painting
- Understand various artists and artworks from art history
- Develop and stimulate your creativity

Drawing:

- Diversity and expression in lines (angular, curved, free)
- Shadow and light – various methods of shadowing and crosshatching
- How to translate natural or artificial structures into artistic structures
- Understand symmetries and asymmetries
- Elements of perspective (and descriptive geometry)
- Composition

Painting:

- Watercolours
- Understand the various kinds of paints and surfaces
- Ways of using the tools and materials
- Practice and theory

Mixed techniques

Materials: A list will be provided by the instructor
