English Calligraphy

Description:

Calligraphy or the art of beautiful writing is a fascinating and absorbing skill that just about anyone can acquire.

For those new to the art form, lessons will begin with the practice of basic letter forms until they can be written with some fluency and spontaneity. Practical applications of these calligraphic alphabets will then be utilised by completing simple projects such as greeting cards, gift tags, invitations, name tags, the list is endless.....

For those with more calligraphy experience, we will move to projects that require greater skill including combining them with other art forms, using watercolour and pastels etc.

As your skills develop, calligraphy will become an immensely satisfying and rewarding means of expression. After having mastered the fundamental techniques, you will be able to enjoy the rewarding process of putting these skills to creative use in your everyday life.
