Design on Canvas & Basic Acrylic Painting Techniques

Description:

This course will allow students both new to art or more experienced to express themselves in less conventional or restrictive forms. Art can take many forms of expression. This course will allow you to express yourself in any abstract form using acrylic paint in a variety of ways to create different effects which can then be enhanced with coloured liners, sequins, gold or silver leaf and textured or natural materials such as charcoal and sand. The options are endless and exciting enabling you to express your creativity and produce canvases unique to the individual.

Students may also concentrate purely on acrylic painting if they wish.

The ability to draw or to have had some previous art experience is not necessary.
